

BRAKLICK

BRAKLICK is a general purpose degreaser designed to remove oil, grease, brake fluid and other contaminants from all types of brake assemblies. It is formulated with selected solvents to meet the challenge of removing any contaminant.

FEATURES

- Removes quickly and safely brake fluid, grease, oil and other contaminants.
- Cleans instantaneously and effectively brake linings, Clutches pads, drums and calipers.
- High Penetration ability - Brings up and removes oil and grease.
- No ozone depleting solvents.
- Non Staining and non corrosive.
- Selected Solvents- controlled evaporation, low surface tension and high density ensures superior degreasing.
- Powerful jet spray – Can be applied without disassembling the brake unit.
- Fast evaporation- minimizes downtime associated with cleaning.
- Residue Free -Prevents harmful accumulation and eliminates rinsing or wiping.
- Inverta valve or 360^o Valve – allows that all usable product is expelled from the can evenly when sprayed in an upright or inverted position.

APPLICATIONS

- Mechanical brake linings
- Wedge brakes
- Clutches & clutch discs
- Wheel bearings
- Brake drums
- Brake shoes
- Disc brake pads

PROPERTIES

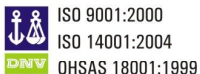

Flash Point ----- - 16⁰ C
Specific gravity----- 0. 750
% Non –volatiles----- Nil
Propellant----- Carbon di oxide

Package:

Net Contents : 500 ml (400 gm) Aerosol

DIRECTIONS

- Always read label before use.
- Not recommended for use on equipment that is energized.
- Do not inhale. Refer to MSDS for personal protection equipment.
- **Do not** use near sources of ignition.
- Protect all plastic rubber parts and painted surfaces from overspray.
- Test on small area before using. May be harmful to some plastics.
- Remove mechanical plates, covers, etc. to expose equipment interior. For best results, remove heavy deposits of contaminants by scraping with a brush.
- Spray liberally and allow to evaporate.
